# REPORT OF SCHOOL BOARD

---

During the past year the schools have been doing their usual good work and there have been no essential changes in the course of instruction.

The schools have been somewhat interrupted by the changes of teachers, more lucrative situations having caused them to resign their positions here. The prevalence of diphtheria in town was a disturbing feature and as a precautionary measure the Christmas vacation was extended to five weeks.

Although the class which was graduated from the High school in June comprised only three members, the present enrollment of the High school is larger than usual.

There have been several changes in the district schools. The school in No. 8 was closed in the spring and that district united with No. 4 and No. 10, with the sessions at Patch's Corner. The arrangement, having proved to be for the most part satisfactory, is continued. At the beginning of the fall term it was deemed advisable to open school in No. 3, to accommodate scholars who were sent into a Nashua district and also save transporting others to the village. After one term, however, the school was again closed. The schools in No. 6 and No. 11 have had no winter term.

Very little information has been received in regard to the formation of a Supervisory district, the intention of the surrounding towns apparently being to defer such a plan for the present.

With the report of the past year's work naturally go suggestions for improvements. Believing that the scholars are educated in part by their surroundings it is the earnest desire that the schoolrooms be made more attractive. The ordinary wear and usage of the building at No. 1 during the period since its renovation have had their natural effect. The rooms should be freshened up, new slate blackboards put in, good pictures hung and all the rooms given a more pleasing appearance. It would seem all together fitting that a picture of Miss Mary S. Farley be hung in the High schoolroom.

We most earnestly request the townspeople to show their interest in the schools, by their personal visits and by encouraging teachers and scholars to do their best work.
